

# SPORTS PSYCHOLOGY ENDORSEMENT

Beginning June 2023, Truett McConnell University is pleased to announce a master's level **SPORTS PSYCHOLOGY ENDORSEMENT** that can be added to one of the Professional Counseling Master's degree tracks now offered at the university (a 66-hour, LPC, state licensure track; or a 36-hour Professional Counseling/Global Mental Health degree track). These two tracks are offered on campus, or online.

Those students who graduate under the LPC licensure track will be eligible for additional certification from the Association For Applied Sport Psychology, Board of Christian Professional Counselors as a Certified Christian Counselor through AACC, and The International Sports Professional Association (ISPA) as a Certified Sports Counselor. Those students who graduate under the 36-hour program can be eligible for all the above certifications except the Association for Applied Sport Psychology.

Truett McConnell University, located in the mountains of northeast Georgia, is committed to the integration of a Christian worldview in all academic endeavors.

Interested students are requested to contact Hunter Smith in our Graduate Admissions office at 706.865.2134 for more information.
